Rebuilding Guidelines To Reduce Hurricane Damage

Camille Toll 288 Beach Homes

Hancock County Assessor, George Heitzmann, made a long weary footsore journey beginning August 18 on Beach Boulevard, from one end of the Sea Wall to the other, of approximately 14 miles. On this hiking trip he counted 288 dwellings or rather where dwellings had been the day before. Most of them were completely demolished or gutted. This count was dwellings only and did not in-

clude churches, business places or public buildings.

"This count, the assessor said, means a loss of nearly \$750,000.00 in assessed valuation exclusive of real estate." During the next few months he expects to have a complete count of all demolished dwellings in the county. This task will take considerable time due to lack of extra help in the assessor's office.

Mulatto Bayou Future Bright

The fact that Hancock County's port and harbor project at Mulatto Bayou remained high and dry throughout Hurricane Camille may have had bearing on the decisions of two industrial concerns to seriously consider the facility in their plans.

Both are expected to make official announcement within the next two weeks and should their decision be favorable, it will be the best news for this county since the eye of the hurricane passed directly overhead.

Port and Harbor Commissioners on Thursday approved the site preparation activities of their director, C. H. Hill, and change orders to their contractor, L. B. Green, still, covering the work being performed at unit prices.

One of the two industries has already taken option on 40 acres and their deposit, in the form of a cashier's check, has been received and acknowledged by commissioners.

Thomas Frommer of Frommer Engineers, New Orleans, La., the commission's consulting engineers, said he had inspected the port facility directly after Hurricane Camille and found no problems less a few trees down at the entrance. He reported that the new water well was flowing in excess of specifications and that

the State Board of Health had ruled the water was free of bacteriological content.

He said the barge mooring dolphins had withstood 'Camille' and were in excellent shape.

In another hurricane related matter, commissioners voted to extend the time limit on some of their contracts in accordance with engineer's recommendations. An assessment of time extension for the balance of work is expected to be rendered at their next session, 7:30 p.m., Sept. 18, in their office back of Gulf National Bank Building, US 90, Bay St. Louis.

Municipal School In Compliance

Superintendent of the Bay St. Louis Municipal Separate School District, J.D. McCullough has received the following message from Leon E. Panetta, District Office of Civil Rights, Washington, D.C.

"The Bay St. Louis Municipal Separate School District has submitted an acceptable desegregation plan, consequently the termination of Federal financial assistance of the school district is lifted as of this date September 10."

Said, McCullough, "This school district is now eligible for all federal funds available for its use."

Pass Christian Recovery Program Well Underway

Gulf Coast Regional Planning Director, Jack Different and Dayton Robinson of the Pass Christian City Planning Commission recently met with local business groups to outline guidelines and rules for the rebuilding of the city's business community. A moratorium on construction on the beach has been declared until zoning and business codes have been established.

Meeting with Mayor J. J. Wittmann on Friday were members of the Board of Aldermen for the purpose of establishing ordinances for building construction within Pass Christian.

Pat Boone hosted a two-day barbecue for property owners of his newly developed "Discovery Bay" area and plans for further development of that resort property were discussed. Joining the group were State and local officials to endorse the adopted slogan of "Rebuild, and build new and better."

The city of Pass Christian's problems continue. Many persons who were evacuated during Camille are returning to reestablish. There is a real shortage on housing and there has been reported increase in the number depending on relief agency food, clothing and other

Bay St. Louis Council Reports

In order to acquaint the citizens with pertinent information the Bay St. Louis Commission Council has initiated the Bay St. Louis Municipal Planning and Industrial Support Team. Citizens will be kept informed with reports and public notices as they are compiled. Additional information, if needed, may be obtained by calling 467-9094.

The curfew now in effect from 11:00 P.M. to 5:00 A.M. will cease at 8:00 A.M. Friday, September 19, 1969.

Keep all streets open for emergency traffic. Do not start any out-of-door fires.

Water pressure is now normal and all storage tanks are filled to capacity. The water is now fit for human consumption and boiling or other purification methods are no longer needed. Water is now available to every one except in a few instances where there are broken service lines.

Sewage pumping is now 90 per cent operational and is scheduled 100 per cent complete by September 19.

The gas distribution system is now operational excluding Paradise Point and areas north of Engman Avenue and some dwellings where there are line breaks, broken meters or regulators.

Report all Gas, Water and Sewage leaks to City Hall. Power is now available to 98 per cent of the patrons. Those not having power may have broken meters or house wiring damage. Have possible damaged or defective wiring checked by a competent electrician. This might prevent a destructive fire.

Check with City Hall before entering into a contract with any non-resident firm or individual.

As revisions are being made in existing building codes DO NOT start any new construction at this time. Such revisions will be completed within six weeks.

Approximately 1900 telephones are now in service. Ten public phones have been installed temporarily at the A & J Food Store on Main Street. Total telephone service is estimated for September 19. Present subscribers have priority on restoration.

(Cont. on Page 6-A)

American Red Cross-SBA Explain Activities

At a special called meeting of the American Red Cross Monday afternoon at St. Augustine Seminary in Bay St. Louis vital public information was discussed between functions of the Red Cross and the Small Business Administration in their Hancock County disaster operations.

Jim Duffy and James Gilbert, both representing the Small Business Administration told of their hours and place of base operation. The Gulf National Bank Building on Hwy. 90, Bay St. Louis is where the SBA Headquarters is set up, with office hours 8:30 a.m. to 6:00 p.m. seven days a week.

The SBA representatives stated that the main information needed in order to start an application form in process was: 1. Estimate of loss in dollar value, 2. Personal household losses, 3. copy of deed to the property.

The most important factor the SBA considers is the ability of a person to repay the loans, which are available for \$100,000.00 for physical damage to business property; \$50,000.00 for damage to homes and \$10,000.00 for

damages to contents to those homes.

As pointed out by those SBA representatives rumors have been circulated that are actually not the policies or guidelines to getting SBA assistance.

It was suggested that if anyone thinks he is justified in needing a SBA loan, but was turned down when he first approached SBA, this person should re-apply.

It was noted that persons wanting to apply for a SBA loan should not wait to a later date, but should apply immediately. Persons might be eligible under the guidelines established by a special program called disaster program, which falls outside the realm of the regular SBA program.

In concluding the meeting Robert Williams, an American Red Cross representative, stated the statistics of his organization's operation to date in Hancock County.

The American Red Cross had handled 3,228 emergency relief cases, out of approximately 4,800 families in the county--approximately 1,800 applications have not been returned to the SBA office for

further processing.

In dollar amounts released in Hancock County: Mass Care \$83,106.00, composed of cleaning material and mass feeding, Individual Food, Clothing and Maintenance \$276,186.00; Buildings and Repair \$43,001.00; Household Furnishings \$402,824.00; Emergency Equipment \$4,678.00; Medical & Nursing \$8,493.00; A G R A N D TOTAL OF \$918,295.00.

Water Problems Exist Again In Pass Christian

At least three fire plugs were inadvertently knocked down on Monday by heavy equipment while the contractors working under the Corps of Army Engineers were intent on the monumental task of clearing debris from public property today, according to a statement made by Supervisor Francis G. Hursey.

Hursey said that he did not have any idea how long the city of Pass Christian would be without water as a result of this mishap. He added that a fine job was being done toward clearing the Live Oak Cemetery and the property belonging to the Pass Christian Public School System.

"In many cases," affirmed Hursey private property is being cleared as the engineers deem necessary for the program of public health and safety. Mr. Hursey added that before any clearing of private property is done permission --

(Cont. on Page 6-A)

A Message From Your Red Cross

If you are a disaster victim in need of assistance and have not contacted the Red Cross Disaster Relief Headquarters, please do so as soon as possible. The Red Cross will remain on the job here until all plans are completed for the families that have sought aid.

However, all applications must be made by September 24th, when registrations close. You may apply for aid before then between the hours of 9 A.M. and 5 P.M. at the Red Cross Disaster Relief Headquarters.

(Cont. on Page 6-A)

ATTENTION

ALL traffic and mail are to stop the 4-way stop and make a right turn on a red light. This will be subject to arrest.

Bay Sanitation Department Now On Strike

added to the many trials and tribulations of the Commission Council by going on a strike

Tuesday morning. There is a considerable turnover of such crews as many individuals work

only a few days or weeks and then quit. The Council has set up a

meeting with the strikers for tomorrow (Friday) morning at the Pass Christian City Hall at 10

arranging to make temporary arrangements for garbage pick-up.

INSPECTING DOWNED tree on Charlotte Farm are (L to R) Pete Nolan, Frank Merrick and Forester Parker. Parker said there were 924 board feet in the fallen tree.

Statistics Given

The following statistics have been for the entire Gulf Coast by the Red Cross.

- Number of dead - 135
- Minor - 42
- Number with major injury - 528
- Number with minor injury - 8,489
- Homes destroyed - 8,660
- Homes with major damage - 13,155
- Homes with minor damage - 26,069
- Mobile homes destroyed - 921
- Mobile homes with major damage - 621
- Small businesses destroyed or with major damage - 726
- Farm buildings destroyed - 444
- Farm buildings with major damage - 882
- Small boats destroyed or damaged - 178
- Shelters still open - 2
- Number of persons currently sheltered - 900
- Number of registration centers open - 28
- Number of registrations to date - 24,059
- Total number of meals fed - 443,398
- Red Cross staff assigned - 338
- Red Cross nurses assigned - 20
- Estimated number families affected - 69,100
- Estimated number families to request ARC assistance - over 26,000.

Aid Extended To G.E. Employees

Exceptional personnel actions are being taken to aid employees of the General Electric Co., their families, and others in south Mississippi and southeastern Louisiana adversely affected by Hurricane Camille.

John R. Picard, general manager of the GE Management and Technical Services Department, announced that the services of school teachers, both

public and private, who are currently unemployed are being sought for work within the Department at the NASA Mississippi Test Facility. Picard said the offer was endorsed by NASA and it is hoped such employment will help teachers remain in the area until their regular teaching work begins.

Mr. Picard also announced that the department's summer employee program will be extended so that those summer employees not returning to school as students or teachers

Flying Box Cars

Land Phone Repair Trucks And Crows

Hoosier Help came to the aid of Ole Miss within hours following Hurricane Camille with men, trucks and heavy repair equipment. All were flown from Indiana, Delaware, New Jersey, Pennsylvania and Illinois. They landed in several key points of this disaster area, and with skill and ability started establishing communications so vital to all of us.

"Even in the high velocity part of Camille the Gulf Coast area was never completely shut off from outside communications," according to Mr. Franklin Kyle, District Manager of the Gulf Coast Area of the South-Central Telephone Company. "At 2:30 a.m. following Camille—or rather during Camille, I talked with my mother who phoned from Bunkie, La.," he added.

The Gulf Coast area had 80,000 phones in service prior to Camille," stated Mr. Kyle, and he added that as of Sept. 6 over 53,000 of these installations were back in service. Mr. Kyle estimates that by the end of this week all serviceable phones will be in working order. The work crew consists of over 1,000 men. Some drove from Florida, Alabama, Louisiana, Tennessee and South Carolina to re-endorse the Hoosier Help.

Most dramatic, was the feat of repairing the underwater cable that extended across the bottom of the Bay of St. Louis and re-stringing it along the railroad bridge during the early efforts of restoration.

Observance Day At Waveland Methodist

It's back to Church and Church schools Sunday at the Waveland Methodist Church. Sunday School classes for all ages at 9 o'clock with Church services beginning at 10. Everyone is welcome.

Plans will be the annual observance day for the closure of schools on the first day. The observance day was postponed due to the later opening of schools.

The Pastor, Rev. Harold H. Foster who is also Pastor for the Clement Harbor Church, was the moderator of the observance at the Waveland Church. The Clement Harbor Church was severely damaged by the hurricane.

Church Ladies From Columbus Visit Area

Sunday last, a group of ladies from the Episcopal church in Columbus were in Pass Christian checking on the welfare of members of Women of Trinity, according to Mrs. Logan Cline, past president of that group, who was hostess to the ladies. Among those making calls were Misses, Maude Walker, Thos. Wolford, and B. Baughn. Plans for Guild Work Shop are underway.

The date of the convention is October 21 and 22 in Columbus. This is in connection with the annual general meeting of the Women of the Mississippi Diocesan.

ELLEN WESTERN

Western, Alexander, Opticals Set

Engagement of Miss Elizabeth Western to Mr. Gerald Alexander, son of Mrs. Billie Ray Alford of Wiggins, Miss., is announced by her parents Mr. and Mrs. Price S. Western of St. Louis. The bride-elect, a 1967 graduate of Bay Senior High School, is presently attending the University of Southern Mississippi. She is a junior, Mr. Alexander, a 1965 graduate of High School and a 1969 graduate of the University of Mississippi, majored in accounting. He is employed by Herbert Holt C.P.A. firm in Meridian, Miss.

The wedding will be solemnized at a candlelight ceremony at 7 p.m., October 11, at St. John's Episcopal Church. A reception will follow in the Parish Hall.

Announce Arrival

Mr. and Mrs. Andrew Givens announce the arrival in Pass Christian of their second child, a daughter, Angelle Therese, born September 22.

Mr. Givens is the former manager of the Myers, daughter of Mr. and Mrs. Henry Carver of this area.

Thanks to American Commercial Barge Line for emergency supplies in New Orleans and the area.

MISS CHERYL PAVOLINI

Miss Pavolini, Jay M. Warner, Are Betrothed

Mr. and Mrs. Harold Joseph Pavolini Sr., of Pass Christian announce the engagement of their daughter, Cheryl Kay, to Jay Martin Warner Jr., son of Mrs. Warner Sr. and the late Mr. Warner of Bay St. Louis.

The bride-elect is a graduate of Pass Christian High School. The groom-to-be, a graduate of Hancock North Central, attended Pearl River Junior College.

Miss Pavolini is a granddaughter of the late Mr. and Mrs. Sullivan Fayard of this city.

The wedding will be solemnized Sunday, September 28, in Our Lady of Lourdes Catholic Church, Pineville, Miss. A reception will follow in the Parish Hall.

Friends and relatives are invited through this medium.

LIKE THE SPHINX - The Buena Vista Hotel, famed Gulf Coast landmark and convention center, is pictured after Hurricane Camille debris was cleared from its foreground and front parking area, and normal operation restored. Daily occupancy is reported at about 90 per cent, and a number of associations originally slated for fall conventions here have reconfirmed plans to bring a total of more than 3,000 delegates to the hotel from September through December.

Mr. and Mrs. Danny Krankey announce the birth of their first child, a son Justin Scott, September 13 in Hancock General Hospital. He weighed eight pounds, one ounce.

Mrs. Krankey, the former Frances Cochran is the daughter of Mr. and Mrs. O'Neal Cochran of Bay St. Louis. Mr. and Mrs. Harold Krankey, also of this city, are the paternal grandparents.

\$44.22 Raised At MTF Employees

Employees of the NASA-MTF Spaceflight Center, \$35,744 during the two weeks help their workers' two MSFC facilities whose homes personal belongings were destroyed or damaged by Hurricane Camille.

A special fund was set up by the Marshall Center for Dr. Wernher von Braun of the relief fund made to its employees and families at the Mississippi and Michoud Assembly. The drive on one after Camille strike and Friday, Sept. 5, are being acted the end of this week, according to campaign.

Homes of 13 NASA-MTF were completely destroyed by the hurricane. More workers' homes contents were more or less damaged. 78 NASA employees the facility. Almost half live in the Gulf Coast cities of Long Beach, Christian, Bay St. Louis, Waveland, four of the areas hit by Camille.

Mississippi Test Facility under the direction of the Marshall Center, is the test site for the first stages of the Saturn V vehicle, used in the lunar landing program, located in Hancock County, a few miles from the Coast.

Five NASA employees at Michoud Assembly Facility homes or personal property destroyed by the hurricane. Michoud, 15 miles east of downtown Orleans, is the assembly site for first stages of Saturn V and Saturn vehicles.

First Birthday Celebrated

A clown theme was used in the decorations, favors and cake when Rob Compretta celebrated his first birthday with a party Sunday afternoon at the home of his parents Mr. and Mrs. Bobby Compretta.

Helping Rob celebrate the occasion were Toni Grogg, Kellie Kingston, Kerri Kingston, Amy Compretta, Stephanie Cuevas, Danielle Murphy, Maressa Murphy, Jackie Sotak, Shelly Burch, Hope Chintche, Michelle Chintche, Tina Fayard, Connelly Compretta, Rusty Adam, Kenny Langford, Raymond Thomas, Mark Murphy, Ronnie Arctigue, also Mr. and Mrs. Norman Grogg, and Mrs. Nickie Kingston. Mesdames Donald Compretta, Donald Cuevas, Dan Murphy, Jack Sotak, Stanley Burch, Josephine Chintche, Charles Langford, Ronnie Arctigue, Frances Compretta, Mr. and Mrs. Jimmy Chintche, Mr. and Mrs. Gerald Fayard, Mr. and Mrs. Randy Adam, Mr. and Mrs. Raymond Thomas, Mr. and Mrs. Nolan Kingston, Miss Marsha Compretta, Tony Compretta Jr., Tommy Kingston, and Kevin Livingston.

Red Cross ...

(Cont. from Page 1-A)
at St. Augustine Seminary. An experienced Red Cross worker will discuss your problems with you and plan with you to meet those needs you cannot handle alone. In disaster, all Red Cross assistance is an outright gift. No loans are made. No repayment is required or expected.

Council Reports ...

(Cont. from Page 1-A)
Ninety-eight per cent of Bay St. Louis Streets are open to traffic excluding Beach Boulevard from Ulman to DeMontluzin. Partially obstructed Beach Boulevard includes a strip from Court Street to Ballentine and from Dunbar to the end of the sea wall.

The Fire Department remote control hook-up with City Hall is again in operation.

All schools are now open except the Christ Episcopal Day School which will open Monday, September 22.

Any property owner requesting debris removed from private property please register at City Hall. (If you have already registered please do not register again.)

Bay St. Louis residents only, may apply for mobile homes (trailers) at City Hall.

Applicants for mobile homes must have space cleared for the mobile home and the road or driveway cleared from the street to the lot. The applicant is required to pay for gas, water, sewage and power line installation from the distribution system to five feet of the trailer. If the applicant is unable to pay for such installations he should make application to the Red Cross for financial assistance. Red Cross Headquarters are in the Sy Rosenthal Gymnasium.

Some delay has been encountered by trailer applicants in the placement of trailers because the lot was not cleared or the entrance from the street was not cleared.

If you have ordered a mobile home and then decided you do not want it please advise City Hall at once of the cancellation as your trailer can then go to one of the many on the waiting list.

To date, 31 mobile homes have been delivered to applicants in Bay St. Louis.

The above information was compiled September 16, 1969.

Helpful Hints

If upholstered furniture is badly damaged, the stuffing may be so deteriorated that it needs to be replaced. Springs may need to be cleaned and oiled, and the frame cleaned. If much work is needed, the furniture will probably need to be sent to an experienced cabinetmaker or upholsterer.

For deep discolored spots, a drop or two of ammonia on a damp cloth may be needed. Rub at once with a dry cloth, then polish.

Cigarette ashes rubbed in with the fingertips are often effective in removing white spots.

If all efforts to remove white blemishes are ineffective, it may be necessary to refinish the furniture.

If your silver went under salt water get busy as soon as possible with cleaning and polishing.

1970 Mustang Mach 1

1970 Ford LTD

1970 Torino Brougham

Today is 1970 at your Ford Dealers!

Now Ford offers you a car shaped by the wind—the all-new Torino. A Thunderbird like none you've ever seen. Cars for a new way of living—Maverick and Mustang. Fords that lead in quiet luxury—LTD and Galaxie 500.

1970 Torino.
All new clear through. No matter which 1970 Torino you choose, you'll be driving the most completely changed car of the year. The new Torino has a longer wheelbase for a smoother ride. A wider track for better road holding. And aerodynamic styling shaped in a wind tunnel and refined at Daytona, Riverside, Darlington. Torino powerplants range from a peppy 250 Six to the big 429 4V Boss V-8. New shape. New size. New style. New power.

1970 Ford.
Take a Quiet Break. Move into the quieter world of the sleek new Ford. The ride is so smooth and vibration-free that you have to test-drive it to believe it. The new Ford has a strong, durable body. On a longer wheelbase and a wider track. Ford's unique new suspension soaks up the bumps to keep them from getting through to you. Take your choice of 21 models and five great V-8's, including the mighty 351 CID V-8 that's standard on LTD.

1970 Mustang.
Run with Number One. No doubt about America's favorite sporty car: it's Mustang all the way! And for 1970, Mustang lets you run any way you like. Take your choice of six different models. Three different rooflines... Sports-Roof, hardtop, convertible. Nine different engines. Take home an economical Hardtop Six. A sporty Mach-1, a luxurious Grande, or the track-proved Boss 302. Mustang's truly designed to be designed by you.

Ford gives you Better Ideas. It's the Going Thing!

RED HOAGLAND FORD SALES, BAY ST. LOUIS, MISS.

Polly peers

REBECCA (MRS. LEO) SEAL found a cedar chest filled with pictures, period dresses and other articles of only sentimental value, relatively undamaged in the wreckage of a storage shed at the rear of her North Beach home. Sometimes during the period that contents of the shed were being transferred to the garage, the chest disappeared. Rebecca isn't concerned about the chest, but would very much appreciate the return of the clothing and pictures, some of which were photographs of her late husband in his World War I uniform.

JULIA SMITH had major surgery just before the hurricane struck, but made the quick recovery on record as she was "toting" furniture about in her home just a week after the operation.

EDDIE ENGELHORN is due a get well wish having injured his ankle when he stepped in a hole in the yard of his Main Street apartment.

DORIS AND ED THOMPSON who were among the many who slept in their attic the night of the hurricane, are now sharing Joyce and Bob Warner's home. Ed has been suffering from a severe sinus infection, but is reported to be feeling much better.

CELIA RAE AND JOE SCHARTZ are now residents of the Tulane Apartments. Celia Rae appreciated every gift she received from friends, but is most grateful to the Memphis, Tenn. resident to send her two decks of bridge cards!

FRAN AND URBAN STORK were recipients of a "CARE" package sent by Joanne and Al Levy from Evansville, Ind. The collection of items for the couple who "has everything" helped the Storks temporarily forget the woes of home and lawn restoration.

GOOD NEWS - The very popular Bookmobile is once again in service. Mildred (Sis) Means was greeting Waveland readers Monday afternoon and will return at the usual time on Friday. Pearlington residents are now also back on the B.C. schedule. Service to Clermont Harbor, Lakeshore and Oak Harbor will resume on Sept. 30; Kila on Sept. 19; the North County run begins next Wednesday and the Northwest county run, the following day.

FRAN AND BOB Lucas and family had as week-after-Camille guests Bob's twin brother Jack, his wife Helen, children David and Janet and a niece Joan Pollock, all of Halton, Ontario. The Lucases are now on the corner of Coleman and Jeff Davis Avenues.

RUTH (MRS. W.C.) FRIERSON says her most recent "39th" birthday on Sunday, Aug. 24, was the best yet, despite the fact that she celebrated while still scoping mud from her Coleman Avenue home. Sons Dick and Aaron surprised her by popping in at the same time; Dick coming from Brooklyn and Aaron from Vietnam. They proudly carried a large cake emblazoned with the message "happy birthday."

CLERMONT HARBOR residents are now picking up their mail at the Lower Bay Road home of Postmistress Betty (Mrs. Frank) Klein. Betty says construction will start on the new P.O. just as soon as arrangements for a S.B.A. loan are completed.

ADDED ANIMAL NOTE - Mrs. C.E. Sparlock is caring for two visiting canines at her 116 Lakeside Drive home. One, a male Walker hound, is recovering from an ear infection and the other is a young female German Shepherd. The Sparlocks are soon moving to Everglades City, Fla. and hope to find both dog owners before their departure.

John W. Flannery
John W. Flannery, 64, father of Mrs. Joyce Gordon and Mrs. Maureen Burns, Bay St. Louis, died Thursday, September 11, in Oakland, Calif.
A native of Ireland, Mr. Flannery was a Catholic.

Other survivors are a daughter, Mrs. James Howell, Port Pierce, Fla., and a brother John Flannery, Bay St. Louis.
A graveside service was held Tuesday afternoon in Garden of Memory Cemetery.

Oswald Lee Villero
Funeral services for Oswald Lee Villero, 56, native of Hancock County, who died August 21 in Waveland, were held August 22 from Riemann's Fahey-Wildfield Funeral Home.
Survivors include his wife, Clarence Bourgeois Villero, Waveland; a daughter, Mrs. Lorraine Villero Poolson, Waveland; and four grandchildren; also a brother, Melvin Rod Villero, Waveland.

The services were held at 2:00 p.m. with interment in Waveland Cemetery. Pallbearers were Jim Poolson, Chuck Poolson, George Bourgeois and

TRUSTEE'S NOTICE OF SALE

WHEREAS, on October 12, 1968, James Albert Wilson and wife, Martha Wilson, executed a deed of trust to O. B. Taylor, Jr., Trustee for the benefit of Kimbrough Investment Company, which deed of trust is recorded in Deed of Trust Book 127 at page 83 in the office of the Chancery Clerk of Hancock County, State of Mississippi; and

WHEREAS, said deed of trust was assigned to Lexington Federal Savings & Loan Association, Lexington, Massachusetts, by instrument dated December 31, 1968, and recorded in said Chancery Clerk's Office in Book 128 at page 114; and

WHEREAS, default having been made in the terms and conditions of said deed of trust and the entire debt secured thereby, having been declared to be due and payable in accordance with the terms of said deed of trust, and the legal holder of said indebtedness, Lexington Federal Savings & Loan Association having requested the undersigned trustee to execute the trust and sell said land and property in accordance with the terms of said deed of trust for the purpose of raising the sums due thereunder, together with attorney's fees, trustee's fees and expenses of sale.

NOW, THEREFORE, I, O. B. Taylor, Jr., Trustee in said deed of trust, will on the 10th day of October, 1969, offer for sale at public outcry, and sell within legal hours, (being between the hours of 11:00 A.M. and 4:00 P.M.), at the front door of the County Court House of the County of Hancock, Mississippi, to the highest and best bidder for cash, the following described property lying and being situated in the County of Hancock, State of Mississippi, to-wit:

Lot 11, Block 2, Spanish Acres Estates Subdivision to the County of Hancock, State of Mississippi, as per map or plat thereof on file and of record in the office of the Chancery Clerk of Hancock County, Mississippi, in Plat Book 3, Page 31.

I will convey only such title as is vested in me as trustee.

Witness my signature this 15th day of August, 1969.

TRUSTEE'S NOTICE OF SALE

WHEREAS, on June 23, 1968, Jack W. Bowden and wife, Evelyn S. Bowden, executed a deed of trust to O. B. Taylor, Jr., Trustee for the benefit of Kimbrough Investment Company, which deed of trust is recorded in Deed of Trust Book 115 at page 431 in the office of the Chancery Clerk of Hancock County, State of Mississippi; and

WHEREAS, said deed of trust was assigned to The Bowers Savings Bank, New York, New York, by instrument dated July 21, 1968, and recorded in said Chancery Clerk's Office in Book 115 at page 568; and

WHEREAS, default having been made in the terms and conditions of said deed of trust and the entire debt secured thereby, having been declared to be due and payable in accordance with the terms of said deed of trust, and the legal holder of said indebtedness, The Bowers Savings Bank having requested the undersigned trustee to execute the trust and sell said land and property in accordance with the terms of said deed of trust for the purpose of raising the sums due thereunder, together with attorney's fees, trustee's fees and expenses of sale.

NOW, THEREFORE, I, O. B. Taylor, Jr., Trustee in said deed of trust, will on the 10th day of October, 1969, offer for sale at public outcry, and sell within legal hours, (being between the hours of 11:00 A.M. and 4:00 P.M.), at the front door of the County Court House of the County of Hancock, Mississippi, to the highest and best bidder for cash, the following described property lying and being situated in the County of Hancock, State of Mississippi, to-wit:

Lot 6, Block 1, SPANISH ACRES ESTATE, a subdivision in Hancock County, Mississippi, according to the map or plat thereof which is on file and of record in the office of the Chancery Clerk of Hancock County, Mississippi, reference to which is hereby made in aid of this description.

I WILL CONVEY only such title as is vested in me as trustee.

Witness my signature this 15th day of August, 1969.

Neville R. Jacob
Public Relations Officer
Hancock County

HANCOCK COUNTY REPORTS

Port and Harbor Commission
Hurricane Camille blew the living whatevers out of the Coast and put most of our houses in a state of disrepair. Lying in hot on the heels of disaster came the American Red Cross to put clothes back on people's backs, food in their hands, and make such emergency supplies available as roof material and bedding.

This was done on the basis of stated need, without the lengthy checking or verification. In Hancock County the Red Cross dispensed \$276,000 worth of goods in this manner with all work being handled to a large extent by a few Red Cross chapter volunteers. Too, to provide immediate assistance to the local economy, the goods concerned were made available by voucher through a local merchant, everybody understood that operation. We all trooped down mattress, some stores, or a free meal, and we all came feeling the Red Cross was doing its job.

Then came the rub.

Stories began circulating about Mrs. This and Mr. That more than just a mattress and free meal. Eyebrows were raised when rumor spread of this person getting household things, that person having a Red Cross man come and at his house, another getting help with medical bills, and

no rumor . . . all true! But let's get the facts sorted

the first place the Red Cross is not just 'handing out' without any regard for what you and I need to replace the things we lost to Camille. They never will. Their idea for granting any assistance to the individual family is based solely on need. Nothing else is involved.

Those big long lists of all the things that we chucked the fence for the garbage men to haul away are one thing, but actual need is something else altogether.

Before getting too involved let's take a gander at the Red Cross setup here . . . on the Mississippi Gulf Coast.

In the matter of a few months the Red Cross will complete the operation of a multi-million dollar business that to Camille didn't even exist.

They will take application for aid from all or any of the 10 (estimated) families affected by the storm and leave permanent rebuilding foundation in our community.

His Camille was a beast(ess)?

She whopped 5,519 homes right off the map, severely damaged 12,491, bashed another 25,090 into the minor damage bracket, caroomed 913 mobile homes onto the junk and damaged another 474. Violently attacked 726 small houses and generously distributed flying debris to all everyone. All these figures being estimated as of Aug. 1969.

You were charged with being responsible for trying to some sort of rehabilitative order out of this chaos, where do you begin?

The only answer is to do what the brand new 'boot-loosey' issue the command, "Carry on sergeant!" The sergeant in case is the American Red Cross.

Right, now what? Let's go into the set up in Bay St. operating for the benefit of the whole county and located in the Sy Rosenthal Gymnasium at St. Augustine's Semi-

nd and directed by Robert Williams of Berkeley, California, the Hancock operation is staffed by 40 case workers, nurses, and volunteers. All are trained, professional people, all are dedicated to helping restore operations and integrity of the individual family unit.

The route to follow is fairly simple. First the family comes to the center, is assigned to a case worker, and completes certain application forms. The forms are required to as full an account as possible of your loss in the disaster, and you expect from Red Cross, and the amount you can help

yourself and your family on the road to recovery. It, in other words, is the basis of establishing the all important need. The family talks the whole thing over with the case worker outlines their thoughts on basic requirements for re-establishing a way of life.

Those are unique to the family concerned so there is no set rule, no firm rules of allocation, again, individual need. The areas of assistance however are quite broad.

In their pamphlet, in the wake of Disaster, the Red Cross says, "It is our country's tradition that American people want to help themselves and that they do so much as they can. This tradition holds true in time of disaster. However, there may be times that you and other disaster sufferers are not able to live on your own. This is where the American Red Cross comes into the picture.

The American Red Cross can help you meet immediate needs for food, clothing, temporary shelter, and emergency medical and nursing care; help you in planning to return to normal family living and in determining what you are able to do for yourself and what additional help you will need; give the help that you need to bridge the gap between what you do for yourself and what you actually need.

Red Cross financial assistance may include funds to provide food, clothing, an maintenance, furniture and other household necessities, repair or reconstruction of owner-occupied homes, medical and nursing care and hospitalization, partial occupational supplies and equipment.

The kind and amount of help that the Red Cross provides depend upon your family circumstances and your disaster-related needs."

Okay? In other words, the Red Cross is trying to provide rehabilitative assistance and everybody is invited to apply. They will help unless you ask.

Your request may seem strange to you, but not to them. James and his warriors are trained people. He runs the Red Cross chapter in Berkeley and they are always having common down there. These folks know that the loss of vocational working tools can cost a man his job and deprive a family income. They know that not everybody is handy with a hammer

saw. They know we are all still a little stunned with the

enormity of the situation and probably look for answer to questions that really lie within ourselves.

These folks have already dumped \$216,000 worth of necessities into the job of rebuilding lives in our county. Over the coast they have committed more than \$2.8 million.

They can help, again if you ask. The volunteers who fed, clothed, and gave us a place to sleep, did a wonderful job and we owe them a debt of gratitude. Sometimes in our anxiety we overlooked the fact that they too had problems.

We must now buckle down and approach this thing in a business like manner.

The Red Cross people here now are trained disaster workers who know we did not all have a color television, Whizoo or whatever automatic washers and dryers, Porcelain rugs on every floor, Oriental draperies on every wall, and a Cadillac in the driveway.

We're just ordinary folks. Let's approach this Red Cross assistance program with this outlook and we won't be disappointed. They will help, based on need.

You cannot go far wrong just nothing.

ALL WORK GUARANTEED

To the customers, employees, and friends of
Mississippi Power Company...An expression of

Deep Appreciation

The damage from Hurricane Camille to our electric system was incredible.

As Camille moved out, leaving unprecedented devastation in her wake, our employees were faced with a nearly impossible task of repairing and rebuilding transmission and distribution lines and other electric facilities. Despite the fact that scores of these employees suffered great personal losses of their own, they immediately went to work to bring electric service back to the area. They stayed on the job — forgetting the clock, indeed forgetting the calendar — until electric power was restored to every customer able to use it.

With a tremendous amount of help from others, this impossible task was virtually completed by September first — truly a miracle, considering the unbelievable havoc wrought by Camille.

We wish to thank publicly the employees of Mississippi Power Company for their devotion to duty, their concern for their fellow men and for the many long hours of work during this great emergency.

We express our gratitude to our sister companies and their splendid personnel who answered with promptness and genuine concern our cry for help. Alabama Power Company, Georgia Power Company, Gulf Power Company, and Southern Services, Inc., sent many hundreds of men and a considerable amount of equipment and materials to aid us. They did this at much sacrifice of their own work plans.

Our parent organization, The Southern Company, immediately marshalled its entire resources to help speed the restoration of service to our customers. We are thankful for their diligent efforts on our behalf.

Other neighboring utilities also gave unstintingly of equipment and men to help repair Camille's destruction. Neighbors who helped us restore service to the area are Arkansas Power and Light Company, Florida Power Corporation, Gulf States Utilities, Louisiana Power and Light Company, Mississippi Power and Light Company, and New Orleans Public Service, Inc. We will ever be appreciative to them and their fine employees.

Numbers of utility contractors; manufacturers; suppliers; and local hotels, motels, and restaurants provided either additional men or support for those who were working. Seabee, National Guard, Army, Air Force, and Coast Guard units cooperated fully in restoration efforts, as did governmental bodies at all levels. We thank each and every one of these individuals and organizations.

The real heroes of the crisis, however, are the customers of Mississippi Power Company. We are grateful for your patience and understanding as we have sought to overcome the problems cast upon us all by Providence. Your bravery in meeting personal disaster has been magnificent. Inspired by the faith, courage, and determination of the people of this area, we are confident that together we will rebuild this devastated region to an even greater eminence than before.

Sincerely,
Officers and Directors

Episcopal Picayune

Seeks Out Members

The Reverend Cecil Jones (Brother of the recently retired Bishop Girault Jones of the Episcopal Diocese, using a list of members obtained from the Church's official paper, has canvassed Camille disaster area seeking out members to learn how they have fared and what the church can do to alleviate suffering. In Pass Christian and Long Beach a similar program is being conducted using directive from Bishop Allin in a concerted effort to account for all members.

Rebuilding ...

(Cont. from Page 1-A.)

control future coastal construction.

Ruble Griffin, president of the sponsoring chamber, in outlining the purposes of the meeting, said that Hancock County bore the brunt of Hurricane Camille and sustained extensive damage throughout. He said the session was to get the county and municipalities moving in the same direction and not to criticize individual or collective action taken so far.

Mayor Carver said they should profit where possible from the hurricane and build back a bigger and better community. He praised the actions of the county supervisors and the Waveland town officials in their handling of the crisis caused by the hurricane and said it was a perfect example of all levels of government within a county working to the common good.

After Carver, Russell Elliott, president, Hancock County board of Supervisors, outlined the actions of his and his fellow supervisors since Camille and gave details of programs being pursued at a county level. These included both state and federal financing, new projects, county operations, disposition of individual offers within the county, and related matters. He invited both municipalities to take full advantage of any services the county may have to offer and of their office established to pursue federal funding of long range projects.

Roy Baxter, chairman, County Planning Commission, asked Elliott that consideration be given to constructing hurricane protection centers within each beat.

Terry Feeney of Waveland endorsed the Baxter plea and asked on the status of the hurricane protection plan submitted to Washington by a committee of the chamber.

Leo Seal responded to the question saying that the state's congressmen and senators were working on the problem and had already managed to have an amendment tacked onto the California Disaster Bill, now in committee, that will put enabling legislation on the books within a little as 15 days.

Charles Russ, III, supervisor, Beat 1, was appointed chairman of a committee formed to study ways of better informing the public of relief and assistance programs available from various state, federal, and volunteer agencies. Others on the committee are Joseph Marochino, Andy Becker, and Russell Chapman.

Recently an "All Faiths" prayer meeting was held in Hancock North Central gymnasium. Participating in the service were Rev. Maurice Flood, S. T. of Annunciation Church, Kilm, Miss., Rev. H.W. Presler of Crane Creek Baptist Church, Rev. Vardaman Speer, Necaise Crossing, Rev. Wm. Kelly of St. Augustine Seminary and representatives of Hancock County Board of Supervisors, Port and Harbor Commission, Farm Bureau, Dept. of Education and Veterans of Foreign Wars.

Outriggers, Inc. To Rebuild At Hancock Port & Harbor Site

Outriggers, Inc. of Bay St. Louis, a seafood processing and processing industry, has announced their intention to rebuild at Mulatto Bayou, site of Hancock County's port and harbor project.

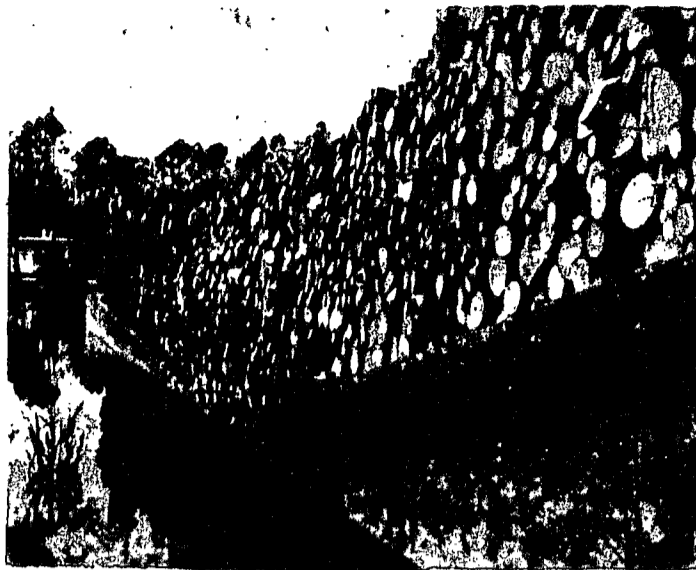

Robert Jones of Gulfport, president, said Saturday that his shareholders have agreed to 'come back strong' and have authorized construction of a plant and icehouse with a production capacity of at least twice that originally intended.

Although still without firm rebuilding commencement date, Jones said he intends to devote full time to the project just as soon as final plans are ready and machinery ordered. Outriggers, Inc. vessels, presently working out of Bayou LaBatre, Ala., weathered Camille and are back out working the banks.

Steel for the new fish factory was undamaged, although the company suffered loss of some new construction and a small storage building.

The estimated 200 plus miles per hour winddriven 20-25-foot high tidal wave and high waters of Hurricane Camille did not reach industrial sites at the port, and pilings earmarked for dock construction and stored on the banks of the Outrigger, Inc. location remained unscratched and unmoved.

Mulatto Bayou is situated in the extreme southwest corner of Hancock County with access to Mississippi Sound via Pearl River.

BARGE LOADED with salvaged logs breaks in two at loading dock.

Bay High Tigers Host Pearl River Central

The Bay High Tigers will be seeking their second win in as many outings Friday afternoon when they entertain Pearl River Central of Carriere.

Kickoff time is scheduled for 4:00 at Tiger Stadium. The Tigers of Coach J.E. Loicane opened their season on September 8th with a 24-8 win over Stone High of Wiggins.

Probable offensive starters will be - Bill Malone (190) at center, Delmer (185) and Steve Smith (185) at Guards, Chuck Scianna (185) and Bobby Carter (180) at Tackles, Wes McFarland (180) and Mike Lynnel (185) at ends.

The backfield will be composed of Gene Estapa (180) at Quarterback, David Manasco (170) at fullback, Nat Faircloth (150) at Halfback, and Ronnie Murray (150) at Wing Back.

Probable defensive starters will be - Norris Sumrall (185) and Strat Poindexter (170) at Guards, Roger Mayo (185) and Hoarndon (150) at Tackles, David Allain (170) and Kenny Ladner (170) at ends, Thomas Hawkins (165) and Winston Whavers (170) at linebackers, Steve Allain (145) Wendell Williams (180), and Doug Burch (150) at halfbacks.

CHESTER LEE's crew putting a pecan tree back where it was. Lee said he successfully performed such operations after the 1947 hurricane.

GENERAL ELECTRIC COMPANY MAJOR APPLIANCES TELEVISION STEREO

IMPORTANT NOTICE TO OWNERS

OF WATER DAMAGED APPLIANCES

It is our opinion that it will not be practical to attempt to salvage television sets, stereos, refrigerators or freezers, which have been completely submerged in salt water. Stereos and televisions contain many complex electrical parts which would have to be replaced, and would therefore make the cost of repair equal to or beyond the cost of a piece of replacement equipment. Refrigerators and freezers contain insulation which would require replacing. Since this saturated insulation has remained in the cabinet for some period of time, it has already started corrosive effects to the cabinet and refrigeration system. This corrosive will, in most cases, cause the refrigeration system to fail within a matter of months even if the refrigerator or freezer is re-insulated and rehabilitated.

Thank you in the meantime for allowing me to discuss this matter, and wishing each of you the best of luck in restoring your homes and business to their original conditions. I remain,

Sincerely,

F. G. O'Donnell

BAY ST. LOUIS, MISSISSIPPI, 39520 THURSDAY, SEPTEMBER 18, 1969

Fleming Bookbinding Co.
P.O. Box 38
Collinsville, Miss. 39326

Gov. John B. Williams Declares Highway Week

Mississippi's participation in National Highway Week this year will be marked by joint efforts on the part of the Mississippi Highway Department and the Mississippi Road Builders Association, Inc.

The week of special emphasis on highway problems and solutions will be observed from September 21-27.

Also participating in this year's events will be Miss Susan Sharpe of Greenwood, the Sweetheart of the Engineering School of Mississippi State University. Miss Sharpe, 19, is the daughter of Dr. and Mrs. Guy P. Sharpe and is a sophomore at Mississippi State.

Highway Week in Mississippi is conducted under the general auspices of the American Association of State Highway Officials, with the Mississippi Highway Department and the Road Builders' Association planning special activities.

A PROCLAMATION BY THE GOVERNOR WHEREAS, the State of Mississippi is engaged in an extensive program to upgrade its highway system to meet the needs of its people and of a growing economy; and

WHEREAS, this program will assure safer, more convenient travel for all motorists, and more efficient movement of the goods and services upon which modern life depends; and

WHEREAS, it has been shown by experience that the benefits of adequate highways exceed their cost, through reduced accident and driving expenses, time savings, enhancement of property values, and encouragement of industrial, commercial and residential development; and

WHEREAS, modern highways are planned and built to improve the quality of the environment, and to preserve and make more accessible the places of scenic, historic and recreational importance; and

WHEREAS, the motorists of Mississippi support this program through their highway-use taxes, and should take every opportunity to inform themselves of the progress and planning in highways;

NOW, THEREFORE, I, John Bell Williams, Governor of the State of Mississippi, do hereby proclaim the period of September 21-27, 1969, as

HIGHWAY WEEK

in Mississippi, and call upon all citizens to reflect during this time on these products of their tax dollars.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of Mississippi to be affixed.

DONE at the Capitol in the City of Jackson this twelfth day of August in the year of our Lord nineteen hundred and sixty nine and of the Independence of the United States of America the one hundred and ninety-fourth.

JOHN BELL WILLIAMS
Governor

By the Governor:
HEBER LADNER
Secretary of State.

Father John Kelly Appointed To OLG

Bishop Joseph B. Brunini, Natchez-Jackson Diocese, announced last week the appointment of Rev. John J. Kelly as assistant pastor in Our Lady of the Gulf Parish, effective September 15.

Father Kelly, who has been an assistant at Immaculate Conception Parish, Laurel, replaces Rev. Richard Somers who has been appointed assistant at Our Lady of Fatima Church, Biloxi.

A native of Ballintogher, County Sligo, Ireland, Father Kelly's first appointment was assistant at Nativity Parish, Biloxi. He served as assistant at St. John's Parish, Biloxi, and instructor of Sacred Heart High School from 1968 until 1968.

Cranes And Crews Clean Dunbar Ave.

Dunbar Avenue is one of Bay St. Louis' main traffic routes. It is important because the Hancock General Hospital, the Health Department, several doctor's offices and an elementary school are located on it. That's why the Corp of Engineers had a clean-up crew on the job all Sunday with cranes, large trucks and big crew of workers to open up and clean up this vital area. W. L. Blackledge, manager of Hancock General, has done a great job in getting the hospital grounds clean and that institution is back to normal. Dunbar Avenue from Highway 90 on through to the beach is clear and in good, safe condition for traffic.

LED FOR THOSE who like a sporty atmosphere and performance is the 1970 Chevelle Malibu Sport Sedan. A new grille and outer body panels give the Malibu for '70 an appearance of freshness accented by new front and rear side marker lights. The new Chevrolet models will be on display today at Lamar-Lane Chevrolet, Highway 90, Bay St. Louis.

DSMOBILE's front wheel drive Toronado, for 1970, reflects the most extensive change in appearance since the car was introduced in the fall of 1965. It is sleeker looking, with distinctive new shape to the wheel openings, a new front end, including a new grille and hooded headlamps, and a more elegant than ever interior decor. The new Oldsmobile's can be seen at Ben Hille Motors, South Beach, Bay St. Louis.

UNDERBIRD for 1970 presents a bold new look, highlighted by a dramatic front end design. All models feature a longer, lower hood and three section extruded aluminum grille for a more formal appearance. Included in the Special Brougham option group, shown here on Thunderbird two-door Landau, are such features as grille lamps, color-keyed wheel covers, high-back bucket seats. Thunderbirds also have hidden windshield wipers and hidden radio antennas to emphasize the clean design. The Ford 1970 line can be seen at Fred Hoagland Ford on Friday, Sept. 19th.

SEPTEMBER 23rd introduces the 1970 Chryslers and Plymouths at Terry-Merrill Motors. Shown above is a 1970 Valiant four-door sedan that has been an outstanding economy car since introduced in 1960.

TRANSPORTATION NEEDS OF OUR AREA.

THESE ADDITIONAL CARS WILL ENABLE LAMAR-LANE TO
GIVE LOWER PRICES ON OUR 1970 MODELS.

LAMAR-LANE CHEVROLET

(A Gerry Lane Enterprise)

Highway 90

Bay St. Louis, Miss.

TIME UPON THE GULF COAST will henceforth be measured mostly by events which transpired either before or after Camille, and will inevitably sooner or later be spoken of as B.C. and A.C. Now, just a few days over a month since the monstrous storm came walling in like a million mad hangers, most have almost forgotten how we lived in the days B.C. Just about everyone has learned how to live happily without many conveniences once considered most essential. Nellie O'Grady and the Colonel's lady are more than just 'sisters under the skin'—they're now wearing hand-me-downs some of which were probably gifts from a common donor.

LOCAL RESIDENTS have always been considered friendly, but now there are absolutely no strangers. Surviving a disaster of such magnitude has united us all with an unbreakable bond. People who thought they were too busy to pause and pass the time of day have suddenly discovered the simple pleasures of chatting with their fellow man. During the long tv-less evenings when electrical power was a luxury enjoyed only by those who had managed to obtain a generator, neighbors visited as they haven't in many a year. Teenagers amused themselves playing games once more, and when homebound by the early curfew, found that the company of parents wasn't really too boring after all.

HUMAN NATURE is traditionally said never to basically change, and we're not in a position to know whether or not the noticeable improvement in dispositions of some isn't just temporary—but we do know of several cases in which dogs, formerly so vicious that even their owners approached them warily, have been transformed A.C. into perfect models of gentle affection and obedience.

REBUILDING AND REOPENING are the order of the day. Waveland Drug is back in business, as are Herlihy's and Villere's. Del Wilcox has opened his store on U.S. 90 at Waveland Avenue, but will return to Coleman Avenue when his new building is completed. Just about all Bay businesses that didn't blow completely away are doing a booming trade, as are most restaurants including Jos Bucoola's Roadview; Jack Kay's Seafood and Lounge, Six Acres, Wheel Inn, etc.

MARIE AND RAY, Gordon have taken a six month lease on their Louisville Garden, but will rebuild on their Beach lot immediately. In fact, Ray began drawing plans for the new home just a couple of days after the hurricane.

GEE MOLLERE was released from Hancock General last week after being hospitalized for treatment of a severely lacerated foot, injured in the midst of the storm. She and sister Hazel Herlihy are living on Nicholson Avenue.

DOROTHY WEATHERS, another Camille mishap victim, was allowed to leave the local hospital on Sept. 5, and is now staying with her father, Mr. Warren Duthu, at his home on Old Spanish Trail.

BEA AND GEORGE George re-opened a couple of weeks ago. Bea says much assistance by brothers Lionel and Zip Retif, a niece Janet and nephew Donald Retif, made the early opening possible. The Retifs also brought along a huge amount of red beans from the Crescent City. Bea even has her new motto "Bea and George will rise again" painted in bright red letters upon a large sign!

GERTRUDE AND JACK Toomey were among the first in Waveland to move into a brand new trailer. It's placed next to their service station and they're working night and day to restore the building to its B.C. condition.

POLLY GRAHAM reports that a very nice man, Will Price of New Orleans, came to her aid helping to fix her roof, etc. He has now opened a temporary office on U.S. 90 near Old Spanish Trail and is specializing in repairs on homes and commercial properties.

MARGIE (MRS. MAC) McCutcheon entered a Crescent City

hospital last Tuesday for a series of very painful spinal tests. She is scheduled to undergo major surgery in about six weeks.

NIXON'S MOST dedicated local supporter, Virginia (Mrs. Fred) Wagner says that she was unable to get near enough to her favorite candidate to see the whites of his eyes, as all the Democrats beat her to Gulfport on the night of his highly publicized visit.

GEORGE STEVENSON sustained a badly sprained ankle during Camille's unwelcome visit but refused to let the injury interfere with his chores—he did utilize one crutch so completely that he was all but running up and down Main Street.

LEONARD BENVENUTI became another post-hurricane casualty when he suffered a badly lacerated knee while cutting whittling fallen pines with a power saw.

BELLE (MRS. CHARLES) Peterson returned to Lakeshore last week, accompanied by daughter Margie and husband Jimmy Wright. She had been their guest in Houston, Tex. Belle plans to rebuild upon the slab of what was her Lakeshore Road home.

RAE AND RAY Rasmussen, whose Lakeshore residence was completely demolished, are making their home in a Court Street apartment. They will rebuild at a new location, just off Waveland Avenue.

HELEN AND CHARLES WHITE had an out-of-town guest who prudently departed the day before the big blow struck.

MANNY HUBBARD returned home Saturday after spending several weeks as a patient in a Crescent City hospital.

JANE WILLIAMS and family are temporarily residing in Woolmarket until their Cedar Point home is reconstructed. (Cont. on Page 4-B.)

MR. AND MRS. CARL J. HEITZMANN

Miss Monti Is Bride Of Carl J. Heitzmann

Miss Mathilde Marie (Mimi) Monti, daughter of Mr. and Mrs. T. F. Monti, and Carl J. Heitzmann, son of Mrs. Carl Heitzmann and the late Carl Heitzmann, all of Bay St. Louis, were married at 7:30 a.m., August 22nd, with a Nuptial Mass at Our Lady of the Gulf Catholic Church.

Reverend John Noone performed the double ring ceremony.

Given in marriage by her father, the bride wore a full length gown of silk organza and reembroidered alencon lace. The gown was fashioned on empire lines, accented with

Infant Baptized

Stephanie Elaine, daughter of Mr. and Mrs. Gabe Favre, was baptized Sunday, August 24, in St. Peter's Co-Cathedral, Jackson, with Rev. Michael Raff officiating.

Godparents were a paternal uncle, Donald Favre, and a maternal aunt, Miss Emily Yarborough.

Stephanie was in Bay St. Louis over the weekend for her first visit with her grandparents.

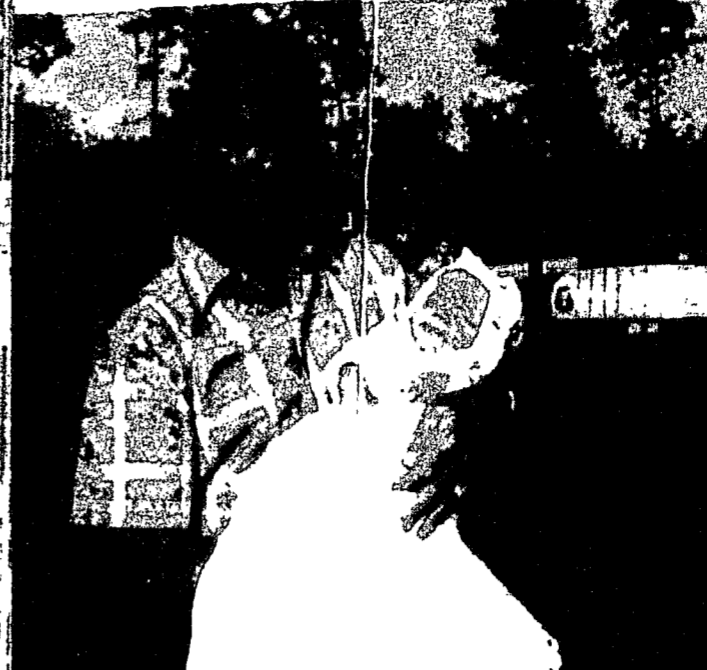

Mr. and Mrs. Herman Yarborough and Mrs. Lydia Favre and with her great-grandmother, Mrs. Edna Necaise and Mrs. A. G. Favre Sr.

Mrs. Poolson Honored With Stork Shower

A pink and white color scheme was used when Mrs. Anthony Pitalo and Mrs. Leroy Luke entertained recently with a baby shower at the Pitalo home on Carroll Avenue, honoring Mrs. Francis Poolson.

The refreshment table, overlaid with a lace cloth, was centered with a cake in the form of a cradle.

The honoree was presented a corsage of miniature baby gadgets interspersed with ribbon.

Melissa Ann, daughter of Mr. and Mrs. Henry Monti, Jr., is shown with her grandfather, Carl Banderet the day of her christening, September 7, in Our Lady of the Gulf Catholic Church. For the occasion she wore the same dress worn by her grandfather when he was baptized 55 years ago in Our Lady of the Gulf Church. The outfit, made by Mr. Banderet's godmother, the late Mrs. Leon Capdepon Sr. of this city, was worn by Melissa's mother, the former Carol Banderet, aunts and other members of the family for their christenings.

Catholic Population Hard-Hit By Camille

Bishop Joseph B. Brunini of the Catholic Diocese of Natchez-Jackson said: "The Catholic Church of Mississippi has suffered a nearly irreparable loss", and added that among the deaths was Father Gilbert O'Neill, O.S.B., of Ocean Springs, whose body was discovered Monday following the storm in his yard beside his car. His home was demolished and it is assumed that he was trying to escape. Approximately one-half of the State's Catholic population lived in the disaster area. The majority are left homeless or jobless.

Of the 107 Catholic buildings in the area only 35 survived without damage. Damages are estimated at well over twelve million dollars. Completely destroyed were eight churches, five rectories, three convents, three schools and three parish halls. Major damages were sustained by ten churches, six rectories and four convents.

Mr. Raymond Heitzmann served his brother as best man. Since returning from their wedding trip to New Orleans, the couple is residing at 301 B. Toume Street, Bay St. Louis.

Honored With Coffee Party

Mrs. Anthony Pitalo entertained recently at her home on Carroll Avenue, honoring Mrs. Barry Jones, wife of Coach Jones who is associated with St. Stanislaus.

Guests included Mesdames W. J. Phillips, William Zimmermann, Gilbert Gayard, Joseph Kerslake, Gus Alme and James Thriftley.

City Echoes

Mrs. Elise McCaleb is spending a while in Ocean Springs as guest of her sister Mrs. Hazel Raley.

Mrs. Richard Curtin of San Antonio, Texas, returned home Saturday after spending a while with her mother, Mrs. Ezolda Ling.

Mesdames Azelle Favre Hale, Hettie Warden and Edith Pritchett of Pascagoula, visited last week with relatives of Mrs. Hale.

Out of town guests driving over to the Mississippi Gulf Coast to seek out and help Colonel and Mrs. Nunez C. Pilet, recently of Yasmme, located on 1524 North Beach Blvd. and now of 103 Gairds Court in Spanish Acres, were Mr. and Mrs. Jules Toledano (former Bay St. Louis Paradise Point

residents), Mrs. Cecile Price of Long Beach; Mr. and Mrs. Richard Volkert of National Bank of Commerce in New Orleans; and numerous telephone calls and messages including Col. and Mrs. Daniel Norman (formerly of Bay St. Louis) now living in Grotto, Virginia; Margarita Gonzalez, a frequent visitor at Yasmme and resident of Guatemala; Misawa Nishitoshi of Tokyo, whose picture appeared in the Sea Coast Echo when he visited Yasmme in 1968. Dozens of messages flow in proving that the Echo is getting out!

Mr. and Mrs. John Wayne Smith announce the birth of their third child and first daughter, Karen Lynn, September 4, in Gulfport Memorial Hospital. She weighed six pounds, Mrs. Smith is the former Jerry Boudreaux, daughter of Mrs. Richard Boudreaux and the

late Mr. Boudreaux of Bay St. Louis. Mr. and Mrs. Harvey Smith of Biloxi are the paternal grandparents.

Mr. and Mrs. Donald Shepard and daughters Donna, Susan and Pam of Windsor, Conn., have returned home after visiting for awhile with her parents Mr. and Mrs. Rene Bermond.

Mr. and Mrs. Lamar Crosby and daughter Maria spent Sunday in Seminary, Miss., as guests of her parents Mr. and Mrs. Bura Ingram.

While there Maria celebrated her fourth birthday with a family party.

Capt. Byron Patton Favre of Las Vegas, Nev. and Mr. C. C. Chambers of Roswell, N. M., arrived Sunday for a 10 day visit with Capt. Favre's mother Mrs. A. G. Favre and family.

Mr. and Mrs. Frank Carver of New Orleans have returned home after spending several days with her mother Mrs. Alma Schindler and family.

Miss Catherine Allison of Manhattan Beach, Calif., who has been spending a while with her parents Mr. and Mrs. Wayne Allison, plans to return to California this weekend.

Mr. and Mrs. Millard Bradford and twin sons Jerry and Jerry and his grandmother Mrs. Ida Bradford of Plaquemine, La., have returned home after a visit of several days with his parents Capt. and Mrs. Ivan J. Bradford.

Wayne Allison Sr., who has been confined to Hancock General Hospital, was discharged Friday.

L. BROCK AND FRIEND ACCEPT DELIVERY OF HER BEVY PICK-UP FROM J.C. KOENEN, SALESMAN MAR-LANE CHEVROLET.

T. L. Brock of Bay St. Louis was in the need of a truck for hauling her horses. She says that girls drive trucks as well as men. She went to Lamar-Chevrolet and told J.C. Koenen that she wanted a Chevrolet and what she wanted it for. J.C. Koenen of Lamar-Chevrolet was able to recommend just the truck Mrs. Brock needed to do the job. The price that Mrs. Brock received from J.C. was almost unbelievable, and her friends, Mrs. Brock recommends that her friends in the need of a new pick-up, car or wagon to visit Lamar-Lane Chevrolet and ask for Koenen, her friendly car salesman that tries his best to give everyone the lowest price on whatever they need for transportation field.

Brother St. Pierre Reports On Stanislaus

Brother Pierre, St. Pierre, President of St. Stanislaus, recently gave official statement following Camille: "Hurricane Camille did considerable damage to several buildings at St. Stanislaus. We are very fortunate that there was no

personal injury to faculty members, to students who had arrived in advance of the opening of the school in order to participate in the football practice, or to refugees who came to the school for shelter from the vicious storm. The buildings are structurally very sound. Considerable work has to be done on the roof of several buildings, window panes need replacing and a massive cleanup job is ahead."

St. Stanislaus opens for the 1969 season this fall.

Pass Landmark Badly Damaged

The Old Nelson Hotel, long a landmark in Pass Christian now owned and operated by Mrs. Margaret (Nelson) McGrath was badly damaged during Hurricane Camille. Mrs. McGrath took refuge in the house of a relative in Pascagoula. She has not, at this time, announced whether or not the Nelson Hotel will re-open.

Game And Fish Public Hearings

The Mississippi Game and Fish Commission will hold public hearings at the Courthouse in DeKalb, Macon and Greenwood on September 24, announced Commission Director Billy Joe Cross.

Hearings at DeKalb and Macon, scheduled for 9 a.m. and 11 a.m., respectively, have been called for public discussion and testimony on the possibility of extending the deer seasons in Kemper and Nacogdoches Counties.

Greenwood will be the site of a 2 p.m. hearing called after a petition by the Leflore County Hunting and Fishing Club. The public is asked to attend in connection with the possibility of closing duck shooting hours at noon in the county.

MR. WILLIE BOURGEOIS AND GRANDSON OTTO GET A NEW IMPALA FROM LAMAR-LANE SALESMAN HERB BARON.

Mr. Willie Bourgeois of Waveland lost his 1967 Impala to Camille, he had the same problem so many of the residents of Waveland and Hancock County. Mr. Bourgeois has known Herb Baron salesman at Lamar-Lane Chevrolet and also a resident of Waveland for a very long time. Herb was a big help to Mr. Bourgeois in settling his claim with the insurance adjusters. Herb goes out of his way to help his friends and customers. If you're in the market for a new car, truck or station wagon, visit Lamar-Lane Chevrolet, ask for Herb Baron, he could save you many dollars. Mr. Bourgeois is happy to say that he recommends Herb Baron as being a truly conscientious salesman.

LAMAR-LANE CHEVROLET, INC. Mr. Willie Bourgeois, (A Gerry Lane Enterprise) Adv. Waveland, Miss.

KANTCHA KETCHUM

By L.S. (Doc) Elliott

The weather and tides for the past week have been ideal for both fishing and hunting. With the dove season being open, haven't heard of too many dove hunters as yet but in Louisiana there are a good many doves in the fields. Some good birds have been reported. Lake Calumet and his hunting buddies made a nice hunt about a week ago. The first segment of the La. season closed Sunday until Oct. 11.

Yours Truly has been staying in New Orleans since the hurricane as there is no roof on our house. Expect to come home next week if possible. Having a home with no roof is like being up the river in a canoe with no paddle.

Passing over the rivers and bayous between New Orleans and Bay St. Louis the waters look clean and excellent for fishing. Will be after them soon. With cooler weather bass and perch should be harder, strike better and make salt water fishing come into its own with speckles and other fish coming into Jordan and Pearl Rivers.

Not long before the World Series will be on. Remember that this is the time to catch those bull croakers at Pearl River in the croaker hole. They average 2 to 2 1/2 pounds. Dead shrimp is the best bait to catch them with. Cat bait is also good.

According to an article in the Times-Picayune oyster reefs along the Gulf Coast suffered little damage from Hurricane Camille. William J. Demoran, biologist for the Mississippi Marine Conservation Commission, in a report issued this week said, "I think we will have an oyster season despite the damage out there." Only one small reef in the Heron Bay area was found destroyed, he claimed. Oyster tonging operations each year in Miss. Sept. 1, but was delayed this year due to the hurricane. The above should be good news to those who like oysters, raw, stewed, fried, etc.

Was interesting to read this

some fishermen from the Bay. For instance Joe Givens. Joe went bass fishing at Pearl River. Water good, he said.

Most fishermen are still too busy fixing up their homes, businesses, etc. There will be plenty time to go later, he said.

Tony Entrante, Sr. Luke Elliott and others are looking forward to their annual fishing trip to Leesville the end of this month. They spend the week catching big redear and speckles out of this world. Lucky guys.

Was sorry to read of the death of Auguste Ramez, 94, who died last week. Mr. Ramez was an avid horseman and when younger was an all-around athlete. In general a real sport. Sympathy to the family. August Ramez is his son.

Major Howard Duff is on a short emergency leave from Saigon. Howard is taking care of the family home at Biloxi which was damaged by Camille.

Cat Island must be uninhabited if all the dead fish, raccoons, cows, etc., that came to the beach were from there.

Did you know that there are soft shell turtles? They are covered by a leathery skin. Have a long flexible neck and a slender snout. They have a delicately flavored flesh which is made into a delicious soup or stew. These turtles are often caught on catfish lines and occasionally taken in traps.

About time to start using underwater baits. Try trolling for bass with underwater plugs and lures. It will pay off. A snagless reel is ideal for casting or trolling in winter time.

Was a pleasure meeting Al St. John at Venice, La. Al says he has never fished but loves golfing. He owns a driving range in New Orleans and a couple of camps on False River near Baton Rouge, La. False River is a dandy place to catch perch and bass. It is worth trying if you like to catch big ones.

According to the estimate of John Mavor, Jr., seafood loss of canning plants on the Coast destroyed by the hurricane will reach \$75,000,000 and will not resume operations until November. Some 3 to 4 industry

ST. MONICA GUILD

Mrs. Monica C. Pilet, newly elected President of the Women of Trinity and vice president of the St. Monica Guild, announced that a re-organization meeting for the women of Trinity has been scheduled since the disaster. "Many of our members have not yet returned to their homes," explained Mrs. Pilet. "For example, our president of St. Monica, Mrs. Kenneth King, had to leave her home because of the circumstances created by high water and since the phone service is incomplete, it is difficult to contact members to get an expression of their wishes," she added.

SPORTSMAN OF THE WEEK

Harold Carver, although not much of a fisherman or hunter is a real sport. He loves football, prize fights and baseball. Pretty active with the Shamrockers and other local organizations.

employees incomes will be cut drastically until at least December. Some loss and more suffering.

Good news to hear that St. Stanislaus High School opened Monday with about 500 boys attending. A number of local residents will miss fishing from St. Stanislaus pier "which ain't no more." Weeks before the hurricane my grandchildren caught fish and 20 big hard crabs off the pier. Something for them to remember.

Wop Glover is worried more about fixing up his house than fishing right now. We'll get back to it Buddy. There'll always be fish.

Reports received say that Pass Christian Golf Course is in pretty good playable condition. Play golf, it's one way to forget part of your troubles.

We are sorry to report the death of Leo Koerner which occurred last week. Leo as he was called by his friends loved to fish and was known for his skill in repairing boats and their engines. Another good sport has passed away.

Geo. Kuntz of New Orleans claims fishing as the No. 1 sport. He catches a lot of red fish and speckles with his friends who share his boat. Geo. also knows how and where to get them.

ADVANCE NIGHT

Marie N. Truxex Memorial Court No. 4, Order of the Amaranth, Inc., will hold advance night at 8 p.m., October 2, in Our Lady of the Gulf Parish Hall.

All members are invited to attend.

RAMSEY'S BEAUTY PARLOR IS READY TO SERVE YOU

Our first step to help build a better Coast

None of us on the Coast will ever forget Camille, and the personal losses sustained by friends and neighbors. But we all will get on with the job of rebuilding to make this a better place to live, to work and to visit.

Our first step, as phone folks, is to rebuild the Coast's vital communications network. And we're at it day and night.

The full resources of the Bell System are focused on this monumental task of helping us restore phone facilities and individual phones in the devastated areas.

All current monthly bills for local telephone service in the affected areas are being adjusted to reflect out-of-service conditions following Camille.

Thank you for your patience and cooperation while we are at work restoring service.

Sincerely,

Franklin Kyle
Gulf Coast District Manager

ST FOUR Randolph H. Mitchell, right, the son of Mrs. Ella Mitchell of Pearlington, awarded the Bronze Star Medal by Major Jesse M. Tyson, chief of the School Support Department of Logistics, during recent ceremonies at the U.S. Army Engineer School, Ft. Belvoir, Va.

Mitchell es Medal

schell of Pearlington, awarded for meritorious service in connection with operations against a threat to the Republic of the United States. He served with the 1st Airborne Division, and was quick to grasp the nature of new problems he was faced as a re-organizing situation in a counterinsurgency operation and to find means to solve those problems. The energetic application of his extensive knowledge materially contributed to the efforts of the United States to the Republic of the United States to assist that country in its threat to its freedom.

uate of the Valena C. School in Bay St. Mitchell entered the service in 1967.

Mitchell, is presently assigned to the Engineer School as a specialist in the support division of the Department of Logistics.

Of Engineers ing Permits

ne CAMILLE destroyed numerous homes, bulkheads, levees and other structures along the coast and inland in Alabama, Mississippi, Louisiana, Owners of structures for which a Department of the Army permit is required may re-apply for the permit without penalty, provided no deviation from the permit plans.

requested, however, District Engineer be promptly in writing of the permit and compliance with this work. All others are to perform work on structures in or adjacent waters of the state, and did not have to apply to the engineer for a Department of the Army permit before commencement of any work.

structions for application are included in the permit. Permits are available free of charge. For information, please contact District Engineer, Corps of Engineers, District, P.O. Box 2288, Alabama 36601; or call Stevens, Chief of Branch, at 473-0311, 018.

MR. GLENN STOCKSTILL OF KILN, MISS., ACCEPTS DELIVERY OF HIS NEW CHEVY PICK-UP FROM LAMAR-LANE CHEVROLET SALESMAN J. C. KOENEN AS HIS FRIEND WATCHES.

Mr. Glenn Stockstill of Kiln was in the need of a new pick-up truck. He shopped the different dealers in the area and got their prices. He visited Lamar-Lane Chevrolet in Bay St. Louis and was greeted by salesman J.C. Koenen. He told J.C. that he was in the market for a new pick-up, and was looking for the best deal. J.C. was able to give Mr. Stockstill a price that he just couldn't turn down. It was by far the best price he was able to get from any dealership. Mr. Stockstill invites all of his friends in the market for a new pick-up, car or station wagon to visit Lamar-Lane Chevrolet in Bay St. Louis and ask for J.C. Koenen, he could save you many dollars. LAMAR-LANE CHEVROLET, INC. Mr. Glenn Stockstill (A Gerry Lane Enterprise) Adv. Kiln, Mississippi

Together We Build

Seldom have the elements ever staged anything as devastating as Camille. As one of nature's major calamities, it was comparable to the Galveston flood of 1900, the San Francisco earthquake of 1906 and to volcanic Mount Vesuvius in one of its eruptions.

The Mississippi Gulf Coast was hit hard, as Camille took its tragic toll in lives and property. There isn't much that one can see that's good in such a disaster, but it has been an inspiring experience to see the heroic manner in which our people responded to this crisis.

Helpers with willing hands have come from afar to do their part to rebuild electric power and telephone lines, open impassable highways and streets, provide fresh water, food and shelter, and restore order in an area temporarily in a state of shock.

It is a dramatic demonstration of the character and civic consciousness of a people meeting disaster with such courage and wholehearted cooperation. It just makes us all feel a little proud that we are so amply qualified to face an overwhelming challenge with individual determina-

tion and a united front. It is an experience in heartaches and heroism we will never forget.

So, we pause in the midst of this devastation, in which men and women have lost their all, even their loved ones, to pay tribute to our good neighbors, and to the many toilers laboring here to rebuild what has been destroyed and restore a semblance of order to storm stricken shores.

It is in the optimistic spirit of a devoted and dedicated people that we see a ray of hope over the horizon and a brighter future, as we press on together with faith in ourselves and in each other to restore this magic Mississippi Gulf Coast — this silver-stranded wonderland.

Seldom has a people been so tortured by disaster and challenged to overcome a major catastrophe.

It isn't the first time our Gulf Coast Country has been put to the acid test, nor will it be the last. Being of enduring stuff however, this resort-vacationland will rise again. The togetherness that makes for a unified purpose will triumph over this ferocious interruption. Together, we will re-build.

HA PY MOTORIN !

R.M. NONNEMACHER, manager Southern Woodlands Division of International Paper Co., watches as Forester M. T. Parker puts a sign "Forest Disaster Salvage Team" on a truck taking salvaged logs to the Whitfield Lumber Company's loading dock.

Bureau Announces Schedule

On Sunday the General Adjustment Bureau will take a brief recess from the grim business of handling claims by the hundreds following in the wake of Hurricane Camille. Offices will open on that day at one o'clock in the afternoon. During the morning of that day the building will be used for worship. Until that time office hours are from 8:00 a.m. until 5:00 p.m., according to Mary Davidson, of Atlanta, who says she will be here until the office phases out the claims department.

"We have a staff of 24 adjusters," Mrs. Davidson explained. Many local agents are working around the clock in an attempt to serve their customers and see that they get the best possible settlement in the shortest possible time.

When asked how to go about filing a claim, Mrs. Davidson said, "The first thing to do is notify your agent. Give him your policy number if possible. Then let us know how we can reach you. If you can live in your home, an adjuster will call on you. If you had to relocate you should give your agent and the Adjustment Office your new address. Mrs. Davidson said, "The most helpful thing anybody can do to help us to help you is to exercise patience and understanding. Remember this is a disaster area and so many people need help. Our two dozen men who serve the Bay-Waveland area are going to devote themselves to your service just as quickly and efficiently as possible."

The General Adjustment Bureau is housed in the Methodist Church Annex on Main at Second Street.

Mrs. Lillian Carver returned home Saturday after spending two weeks with Mrs. John Rau in Gretna, La.

CAMILLE TOPPED tree on Charlotte Farm in Kiln area. Approximately 50 feet of this tree was left standing after the hurricane took off 20 feet of the top. Looking up are L. to R. Pete Nolan, Frank Merrick and Forester Marion Parker. Merrick is manager of N. S. Lumber Co. and manager of Charlotte Farm which lost about 100 acres of the 700-acre forest land. This tall stump measured nearly a foot and a half in diameter at four and a half feet above ground.

See Youngmobile Thinking for 1970 at your Oldsmobile dealer's today: Toronado, Ninety-Eight, Delta 88, Cutlass, 4-4-2 and Vista Coupe.

Cards Lost
In an attempt to raise money for their expenditures, the St. Martha Chapter of Trinity had \$800 of lovely Christmas Cards printed. These cards showed the interior of historic old Trinity last Christmas. Unfortunately they were lost during the hurricane.

According to Mrs. Logan Cline an attempt will be made to have them re-printed if there is enough evidence that sales will be profitable.

Did you know that St. Stanislaus, p.l.r., was destroyed during the hurricane? It was insured by Lloyds.

St. Stanislaus Industries had its plant destroyed during the hurricane. The plant was owned by the NASA Mississippi Territory. The plant was destroyed by the hurricane. The plant was owned by the NASA Mississippi Territory. The plant was destroyed by the hurricane. The plant was owned by the NASA Mississippi Territory.
